<b>Description</b>			
<p>We have some PopupMenus with a limited max height. Upon overflow we would like to have a vertical scrollbar. This used to work nicely with WT3 but broke after upgrading to WT4. Please see the attached images for comparisons. Using git bisect I have narrowed this issue down to commit: 0e5edc630ad542cda9294e1449a537363d069d67 "Removed wtNoReparent/wt-no-reparent"</p>
