

Wt - Feature #1406

option to use HTML version of WTableView in Ajax session

08/20/2012 07:20 PM - Boris Nagaev

Status:	New	Start date:	08/20/2012
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
Such an option may be reasonable for huge tables (e.g., 1 000 000), since scrolling them is hard.			

History

#1 - 09/18/2012 12:15 AM - Boris Nagaev

Other JavaScript functions (like column resizing) are still needed. The option should not break them, it should only change paging method (pages with buttons <-> scrolling).
