

## Wt - Bug #1440

### SHARED\_LIBS overridden

09/19/2012 05:56 PM - Ford Burton

<b>Description</b>			
Minor issue but I can't create static libraries by using SET (SHARED_LIBS OFF) in my CMAKE toolchain file. Looks like the CMakeLists.txt file overrides this. Not a huge deal as I can edit it and force it myself but for those of us attempting to build this for an embedded Linux environment, there should be an option.
