

JWT - Bug #1452

Invalid chart url's

10/05/2012 02:03 PM - Jan Goyvaerts

Status:	Closed	Start date:	10/05/2012
Priority:	Urgent	Due date:	
Assignee:	Koen Deforche	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	3.2.3		
Description			
Concerning the git release "3.2.2-9-ge0145ce"			
Cartesian charts are broken. When rendered offline with png, it returns an image element with an invalid url:			
https://localhost:8443/restricted/restricted.jsessionid=988B81C368BAABBF293CC4935D9BB55B?wtd=988B81C368BAABBF293CC4935D9BB55B&request=resource&resource=oe16a8b6&rand=9			
while it should have been:			
https://localhost:8443/restricted.jsessionid=988B81C368BAABBF293CC4935D9BB55B?wtd=988B81C368BAABBF293CC4935D9BB55B&request=resource&resource=oe16a8b6&rand=9			
Patching WWidgetRasterPainter to return the correct url does not help either. So something more fundamental is broken here.			
Rendering on html canvas results in an empty rectangle.			
There is no apparent error message. Seems to occur independent of the browser type.
