| Target version: | 3.3.0 | | |

Description

In both mentioned files there is a style tag, which includes a CDATA section. The begin and the end of the CDATA section is commented out using CSS comments, but the comment for the end of the CDATA section is malformed:

```
* ]]> */
```

which probably should be:

```
/* ]]> */
```

This also shows in the source view of the live demos.

- Status changed from New to Resolved

Hey,

Indeed. It must have been an editing error that somehow persisted.

Regards,

koen
