Description			
Hey,			
a tool tip of a WStandardItem rendered within WTreeView is not shown when JavaScript is disabled. The generated html code whit JS is:			
<pre>n/a</pre>			
and when JS is disabled:			
<pre><button class="Wt-wrap Wt-tv-c2 Wt-tv-c rh " name="signal=s15d" type="submit"> n/a </button></pre>			
I suppose, the wrapper covers the and its tool tip is not "reachable" any more. Perhaps, the tool tip have to be transferred to the wrapper when JS is missing.			
I'm using wt-3.3.0.			
Regards,			
Stoycho
