#### Description

I Tried to upload image (FileUpload) to save in local machine or current Dierectory

I Attached main.cpp file in the file am using QT (c++ gui frame work )

in the qt i used QImage Load and save

load function working but save function in not working in iis

this is my problem plz tell me how to achive this problem

QImage img;

```
img.load(QString::fromStdString(spool));
```

```
int n=img.width();
```

```
WText * text=new WText("",root());
```

```
string s = boost::lexical_cast(n);
```

```
text->setText(s);
```

```
bool check=img.save("rk.jpg");
```

```
if(check)
```

```
text->setText("Save");
```

```
else
```

```
text->setText("Not Saved");
```

```
img.save("D:\\Test\\love.jpg");
```

- Tracker changed from Bug to Support

- Status changed from New to Feedback

From another discussion, I assume this is when using the IIS plugin. Check if IIS has write permissions in the directories in which you try to save the files.
