

Wt - Feature #2773

WServer default configuration

03/07/2014 12:48 AM - I. Lazaridis

Status:	New	Start date:	03/07/2014
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
<p>The documentation is full of examples which start the server with the same command-line parameters.</p> <p>This could be simplified, by letting the server work on itself, without config.</p> <p>Those values could be hardcoded:</p> <pre>http-address = 0.0.0.0 http-port = 8080 docroot = .</pre> <p>"Server started 0.0.0.0:8080 docroot '! (config from: hardcoded defaults)"</p>
