Description			
Hello!			
Could anybody help me and describe how to make CheckBoxList? I tried to use WSelectionBox and set WStandardItemModel and set			
item->setCheckable(true);			
item->setFlags(Wt::ItemsUserCheckable);			
But it doesn't work. Also i tried to use WTableView with WStandardItemModel and one column. CheckBoxes are displayed but it's not good solution for me. I'm new in wt and i need help. Maybe somebody already made CheckBoxList. I waiting for your advices and maybe short example?			
Thanks for any help

WSelectionBox indeed do not support CheckBoxes (it uses an HTML element which does not have support for that).

What's not good about the WTableView solution, perhaps it can be tweaked to be good?
