

Wt - Bug #3253

Problem with setting WDialog initial position

06/03/2014 02:42 PM - Alan Finley

Status:	New	Start date:	06/03/2014
Priority:	Normal	Due date:	
Assignee:		% Done:	0%

Target version:			
Description			
I want to show my dialog in the top right corner of the page:			
<pre>Wt::WDialog *dialog = new Wt::WDialog; dialog->setOffsets(20, Wt::Top Wt::Right); dialog->show();</pre>			
Then it shows in correct position, but when I try to drag my dialog, it 'jumps' to the left side of the page.			
I use Wt 3.3.1
