

Wt - Bug #3424

Setting focus programmatically for non WFormWidget-derived widgets

07/04/2014 01:02 PM - Cameron Angus

Status:	Closed	Start date:	07/04/2014
Priority:	Normal	Due date:	
Assignee:	Koen Deforche	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	3.3.4		
Description			
A non WFormWidget widget (for example, a class derived from WPaintedWidget) can be configured to accept focus by calling <code>setAttributeValue("tabindex", "0")</code> . This enables focus derived from user input (tabbing, mouse clicks), however there is apparently no way to set the focus programmatically. <code>setFocus()</code> is a WFormWidget method and so unavailable. <code>setFirstFocus()</code> will only consider WFormWidgets.			

History

#1 - 10/15/2014 04:46 PM - Koen Deforche

- Status changed from *New* to *InProgress*
- Assignee set to *Korneel Dumon*
- Target version set to *3.3.4*

`setFocus()` should move to `WWidget/WWebWidget/WCompositeWidget`
