

Wt - Bug #3521

Error in documentation (WTemplate)

Target version: 3.3.4	

Description

There are also two small errors in the documentation.

in src/Wt/WTemplate.

line 534

```
`- if (Wt::Widget *known = WTemplate::resolveWidget(varName)) {  
    • if (Wt::Widget *known = WTemplate::resolveWidget(varName)) { I also believe that line 539 should refer to bindWidget() line  
      539 - bind(varName, w);  
    • bindWidget(varName, w);`
```

The java documentation appears to also need the same changes.
