

Wt - Feature #3616

Dbo: Consider providing access to quoted table names (with schemas)

10/02/2014 12:23 AM - Bruce Toll

Status:	Closed	Start date:	10/01/2014

Target version:	3.3.4		

Description

This can simplify user code that works with SQL involving schema qualified tables and avoids replicating logic that Wt Dbo already provides internally.

The attached patch provides a `tableNameQuoted()` method based on the internal `Impl::quoteSchemaDot` method and has been lightly tested with Wt github (3.3.3-19-gad17d0b).

NOTE: Testing was only done with Postgresql.

This patch is referenced in a related issue: "Auth Dbo: Consider adding schema support for UserDatabase"

History

#1 - 10/02/2014 05:33 PM - Bruce Toll

As noted above, the attached patch is referenced in a related issue ([#3618](#)) "Auth Dbo: Consider adding schema support for UserDatabase".

#2 - 10/06/2014 11:46 AM - Koen Deforche

- Status changed from New to Resolved

- Assignee set to Koen Deforche

- Target version set to 3.3.4

#3 - 10/22/2014 02:28 AM - Koen Deforche

- Status changed from Resolved to Closed
