

## JWT - Bug #3632

### WApplication.require() does not enforce unique loading of js libraries

10/25/2014 03:06 PM - Ludovic Léger

<b>Status:</b>	New	<b>Start date:</b>	10/25/2014
<b>Priority:</b>	Normal	<b>Due date:</b>

<b>Target version:</b>	3.3.4		
<b>Description</b>			
WApplication.require() fails checking for already loaded js libraries due to WApplication.ScriptLibrary.equals() signature not overriding Object.equals()			
The followins equals() implementation results in a working require() method.			
@			
<pre>public boolean equals(Object other) {     if ( this == other ) return true;     if ( !(other instanceof ScriptLibrary) ) return false;     ScriptLibrary sl = (ScriptLibrary)other;     return this.uri.equals(sl.uri); }</pre>
