

Wt - Bug #3644

XHTML Tooltip wrong position

11/05/2014 01:20 AM - Anonymous

Status:	Closed	Start date:	11/05/2014

Target version:	3.3.4		
Description			
Hi,			
after I upgraded from wt 3.3.0 to wt 3.3.3 (I also tried the git version) the XHTML tooltips are not placed in the right position any more.			
If I enabled the full html page, I must scroll down to see the tooltip.			
In version 3.3.0 everything works as expected. The following example can be compiled with:			
<pre>g -o test tooltip.cpp -lwt -lwthttp</pre>			
and I run the example with a link to the corresponding resource directory.			
I'm using Ubuntu 14.10 and tried Firefox and Chrome as browsers.			
I recognized the following difference in the browser Inspector:			
wt 3.3.0:			
wt 3.3.3(or git)			
Was there a change in the methodology for tooltips?			

History

#1 - 11/07/2014 01:42 PM - Koen Deforche

- Status changed from *New* to *Resolved*
- Assignee set to *Koen Deforche*
- Target version changed from *3.3.3* to *3.3.4*

That was indeed a bug. A fix is on its way.
