setJavaScriptMember() and single digit

Description			
Hi,			
setJavaScriptMember(name, value) failed to set value with single digit number (in string). Instead the value will be <i>null</i> .			
<pre>w->setJavaScriptMember("my_value", "7"); // -> broken, my_value is set to null</pre>			
This is a workaround:			
<pre>w->doJavaScript(w->jsRef()+".my_value=7");</pre>			
Found in wt 3.2.3, confirmed in 3.3.4.
