I'm not sure: it occasionally seems to render more than one update to the scrollbar which would mean it is concurrent. So I'm not sure to what extent it is internal locking in tomcat ?

#2 - 10/20/2011 02:25 PM - Pieter Libin

- Status changed from New to InProgress

- Assignee set to Pieter Libin

#3 - 10/20/2011 03:28 PM - Pieter Libin

- Assignee changed from Pieter Libin to Koen Deforche

With Tomcat 7.0.22 and 6.0.20 this is not working.
