Currently, there is no way to know if the user has selected any file in the browser (before it was uploaded).			

### History

---

**#1 - 10/11/2019 11:17 AM - Roel Standaert**

- Priority changed from Urgent to Normal

**#2 - 10/15/2019 11:10 AM - Roel Standaert**

So the filenames are accessible in the value property of the <input>, and in the files property (containing name and size info).

These are not currently communicated to Wt, though.
