

## Wt - Bug #7787

### WContainer setLayout calls overridden clear()

| I cannot call 'setLayout' in my overridden 'clear()' method because WContainer::setLayout calls 'clear()', which results in recursion. I am not sure if this is the right approach in Wt. Maybe setLayout should call WContainer::clear() instead? |        |                        |            |
